

# JAMES MITCHELL DOYLE

Weston, WI | james.doyle6@snhu.edu | 608-417-0678 | U.S. Army Veteran, Airborne Parachutist (62B-1P)

Remote | Available for CET overlap hours

## PROFESSIONAL SUMMARY

Futures-focused research and data analyst with 5+ years of self-directed study in crypto markets, DeFi, U.S. equities, and prop-firm operations. Active prop-firm trader with 10,000+ journaled trades and a disciplined source-verification workflow. Completed a three-project futures research portfolio aligned to PropFirmMatch: six-firm comparison (30+ criteria), BLS-verified NFP/gold market brief, and 50-point PropFirmMatch data accuracy audit identifying 13 sourced discrepancies. U.S. Army veteran (MOS 62B-1P) and former construction business owner with 8 years of P&L, payroll, and exception-handling experience. Completing B.S. Computer Science and Data Management at SNHU. Seeking Futures Researcher and remote fintech research roles.

## CORE COMPETENCIES

Futures prop firm research | Market/data verification | Source documentation and audit loops | Crypto/DeFi and collateral lending analysis | Python analytics | Trading journal systems | Spreadsheet modeling | Operations under cash-flow pressure | Structured writing for non-expert readers

## FUTURES RESEARCH PORTFOLIO

Self-Directed | July 2026 | PropFirmMatch-aligned deliverables

- Project 1 - Firm Comparison: Researched six US futures prop firms (Topstep, Apex, Take Profit Trader, MyFundedFutures, Tradeify, Bulenox) across 30+ decision criteria; delivered comparison spreadsheet, decision matrix, summary report, and source log with date-checked URLs.
- Project 2 - Market Brief: Authored a one-page brief on June 2026 NFP miss and gold (XAU/USD / COMEX GC); verified against official BLS release (+57K jobs, 4.2% unemployment, -74K revisions); included chart screenshots and trader-ready key levels.
- Project 3 - Data Accuracy Audit: Compared PropFirmMatch listings to official firm help centers (50 checks); identified 13 discrepancies including outdated Apex 4.0

FAQ rules, missing MFFU Core SKU, misleading TPT activation promo, and Bulenox coverage gap; delivered spreadsheet and findings memo with recommendations.

## TECHNICAL PROJECTS

Trading Performance and Journal Application | Python | In Development

- Built application to gauge trading performance, journal sessions, and test strategies; supports daily review workflow aligned with funded-account discipline.

Ops Control Tower | SQL / Python | Portfolio

- Fintech operations analytics demo: exception-queue modeling, SLA/MTTR metrics, staging-to-mart SQL transforms, and ops runbook documentation.

## PROFESSIONAL EXPERIENCE

Founder | Red Eye Research | Remote / Weston, WI | 2025 - Present

- Independent market research on crypto collateral lending, institutional adoption, DeFi use cases, and prop-firm structures for B2B-oriented diligence.
- Maintain primary-source verification standards over social-media hype; document due diligence with structured research notes and audit-style recordkeeping.
- Manage three \$100K funded prop accounts (Fxify, BlueGuardian) with systematic journaling and monthly scaling plan toward \$1M working capital across accounts.

Commercial Carpenter | Midwest Council of Carpenters | Madison, WI Area | 2022 - Present

- Union commercial carpentry on 15-story student housing (~100,000+ SF) and 120-unit apartment projects; lead crews of 3-9 on framing and finish tasks.
- Field-to-office bridge: partnered with foreman on mid-project recovery using Bluebeam to track window packages from delivery through install.

Owner / Operator | Doyle's Contracting LLC | Madison, WI | 2014 - 2022

- Managed full P&L on framing and deck work; peak ~\$250K annual revenue, 2 concurrent jobs, 5 employees, and ~\$20K/month payroll.
- Co-developed inspection checklist with municipal inspector after failed framing inspection; achieved consistent pass rate on subsequent homes.
- Restructured decisively after combined ~\$90K+ losses; preserved family stability and transitioned into union carpentry for long-term career growth.

Carpenter | Ford Metro Inc. | Rochester, MN

- Commercial and residential carpentry including timber framing and production carpentry on varied project types.

Construction Equipment Repairer, Parachutist (62B-1P) | U.S. Army | 2004 - 2007

- Specialist (E-4), MOS 62B-1P; qualified parachutist in airborne response force assignment.
- Maintained construction equipment readiness through scheduled maintenance, fault diagnosis, and repair under high-discipline operational standards.
- Top Secret clearance (expired).

## EDUCATION

Bachelor of Computer Science and Data Management (In Progress) | Southern New Hampshire University (SNHU) | Expected 2029

Academic performance: 96.25% on first completed course (962.5/1000)

Parallel self-directed study: 5+ years fintech, crypto, DeFi, U.S. equity research, and prop-firm operations

## CERTIFICATIONS

OSHA 30

## COMMUNITY

Ongoing structured community service and peer mentorship; developed accountability, communication, and consistency practices applied to research delivery and daily operations.
